

Free Multi-Specialist Medical Camp

10 July 2026

Thano Road, Ramnagar Danda,
Dehradun, Uttarakhand

Addressing Healthcare Gaps in Underserved Communities

The Free Multi-Specialist Medical Camp was organised to improve access to specialist healthcare services for the local community. By bringing together specialist doctors, diagnostic services and free medicines in one location, the initiative enabled community members to receive comprehensive high quality and diverse health assessments and medical advice at no cost removing geographic and financial barriers that many local people face to receiving adequate healthcare.

Under the divine guidance of HH Pujya Swami Chidanand Saraswati Ji, President of Parmarth Niketan, Divine Shakti Foundation, in collaboration with Parmarth Niketan, Medanta – The Medicity, Gurugram, and Seema Dental, successfully organised a Free Multi-Specialist Medical Camp at Thano Road, Ramnagar Danda, Dehradun.

The initiative reflects a shared commitment to making quality healthcare accessible to underserved communities by providing free specialist consultations, diagnostic services and essential medicines. Rooted in the philosophy of "Health for All," the camp sought to promote preventive healthcare, early diagnosis and timely medical intervention for those who often go underserved.

Delivering Comprehensive Healthcare Services

The one-day medical camp benefited more than 100 patients, who received comprehensive medical examinations and expert consultations from a multidisciplinary team of healthcare professionals.

Specialist consultations were provided in:

- Cardiology
- Respiratory & Pulmonary Medicine
- General Medicine
- Dental Care

To ensure holistic healthcare support, beneficiaries also received a range of free diagnostic and medical services, including:

- Blood Investigations
- Pulmonary Function Test (PFT)
- Bone Mineral Density (BMD) Screening
- General Health Assessment
- Preventive Health Counselling
- Free Prescription Medicines

The camp particularly benefited senior citizens, women, daily wage earners and economically disadvantaged families, many of whom have limited access to specialist healthcare facilities. The impact was profound, the Respiratory & Pulmonary Function Tests (PFT) helped identify participants with reduced lung function, enabling them to receive timely medical advice and appropriate medications. Similarly, Bone Mineral Density (BMD) screenings identified individuals with low bone density or osteoporosis risk, who were provided with medicines, counselling, and guidance on nutrition and follow-up care.

A Vision of Compassion in Action

The medical camp embodied the humanitarian vision of HH Pujya Swami Chidanand Saraswati Ji, who has consistently emphasised that healthcare is one of the highest expressions of selfless service. Reflecting on the importance of compassionate healthcare, Pujya Swamiji shared:

*"True service is that which relieves suffering and restores hope.
Healthcare is not merely about treating disease; it is about
caring for the whole person with compassion, dignity and love.
When medicine is combined with humanity, healing becomes
complete."*

HH Pujya Swami Chidanand Saraswati Ji

President, Parmarth Niketan

Community Impact

The medical camp received an overwhelmingly positive response from the local community. Beneficiaries expressed their appreciation for the opportunity to receive specialist consultations, diagnostic services and essential medicines free of cost.

Many participants shared that the camp reduced the financial burden and travel required to access specialist healthcare. The initiative also increased awareness of preventive healthcare, regular health check-ups and the early management of chronic diseases, empowering individuals to take a more proactive approach to their health and well-being.

By bringing specialist healthcare directly into the community, the camp enabled many individuals to receive medical attention that they may otherwise have delayed or forgone catching issues in a timely fashion. It also strengthened awareness of the importance of early diagnosis and preventive healthcare, helping to encourage healthier practices within the community.

The medical camp received an overwhelmingly positive response from the local community. Beneficiaries expressed their appreciation for the opportunity to receive specialist consultations, diagnostic services and essential medicines free of cost.

Dedicated Medical Team from the Medanta Foundation

The medical camp was conducted by a highly experienced 15-member team of doctors, healthcare professionals and technicians including:

Dr. Priyanshu Sharma

Dr. Rajat Kumar

Mr. Arun

Mr. Ravi

Mr. Suraj

Mr. Aleem

Mr. Ashok

Mr. Pramod

The team provided specialist consultations, diagnostic investigations, personalised treatment guidance and patient counselling, ensuring every beneficiary received attentive, high-quality care.

Strengthening Healthier Communities

The Free Multi-Specialist Medical Camp represents another important step in Parmarth Niketan's and Divine Shakti Foundation's commitment to improving community health through compassionate service. By partnering with Medanta – The Medicity and Seema Dental over many years, the organisations have been able, and will continue to deliver specialist healthcare directly to people who face barriers to accessing these services.

Beyond providing immediate medical care, the camp forms part of DSF's broader vision of promoting preventive healthcare, encouraging early diagnosis and building healthier, more resilient communities. Through continued partnerships and regular outreach initiatives, Divine Shakti Foundation and Parmarth Niketan remain committed to expanding access to quality healthcare and ensuring that vulnerable families receive the support they need to live healthier lives.
