

**DIVINE SHAKTI  
FOUNDATION**

# **REPORT FOR THE MULTI SPECIALIST MEDICAL CAMP**

**18<sup>th</sup> & 19<sup>th</sup> May,  
2025**

## Introduction :

Divine Shakti Foundation often conducts free medical camps often for the welfare of the underprivileged, including initiatives for eye, dental, pediatric and diabetic care exams, as well as a special cataract surgery camp. The goal of all of these programmes is to provide good health to everyone and to relieve them from pain and distress, thereby creating wellness and well being for all those we serve. To accomplish these goals, we have also partnered with many organizations who volunteer for these noble initiatives.

## Multi Specialist Medical Camp :

In pursuit of these goals, a two-day no-cost multi-specialty medical camp was organized under the aegis of Parmarth Niketan and the Swami Shukdevanand Charitable Hospital, in collaboration with a team of specialty doctors from Medanta-The Medicity in Gurugram. This medical camp was held at Swami Shukdevanand Charitable Hospital, adjacent to Parmarth Niketan, on 18th and 19th May, 2025.

During the camp, tests for cardiac and respiratory issues, as well as for blood sugar and PFT, were conducted, and examinations and consultations were provided. For all the patients, medicines were distributed free of cost - a huge benefit for the many that struggle to make ends meet each month. Rishikesh is a place where a large number of elderly and single monks and many with very little income who depend on ashrams and charity to exist reside - so this service is both needed and appreciated.

This camp was especially beneficial for many who had cardiac and respiratory issues like asthma and high and low blood pressure. The camp was dedicated to the spirit of health, service and compassion, and hundreds of local residents, pilgrims and needy people benefited. The team of experienced doctors examined each patient with utmost devotion, compassion and dedication and provided them with proper consultation and medicines.

### Param Pujya Swamiji at the camp :

On the closing day of the camp, a lamp was lit in the divine presence of Swami Chidananda Saraswati, President of Parmarth Niketan, and a pledge was taken to expand this service work further. Swami Chidananda Saraswati Ji, while giving his blessings to the team of doctors from Medanta Hospital, said, "Service is the true path of sadhana. When there is a confluence of dedication and compassion in service, it not only heals the body but also touches the mind and soul of the person. Such camps not only cure diseases they also spread faith, humanity, and positive energy."

## About the Doctor's Team:

Dr. Himanshu Poonia; Dr. Ramesh; Dr. Suparna; Nursing team members Jyoti, Anuradha, Satish and Raman; Team Manager, Deshraj from Mendata; along with Parmarth Niketan's team Premraj, Dr. Rathi, Dr. S.N. Mishra, Prem, Neeru, and Gaurav participated in the camp, ensuring that no patient returned without being seen.

## Feedback:

Most of the patients who came to the camp said that they not only got treatment at Parmarth, but also felt a sense of belonging, compassion and true service. Local people expressed happiness and said that with such free medical camps being organized every month at Parmarth Niketan, they are not only getting excellent health services, but are also getting regular health checkups.

## Conclusion :

The two-day medical service campaign organized by Medanta Hospital concluded on a high note with a solemn pledge of continued service to the community. Throughout the event, dedicated healthcare professionals offered their expertise and care to countless patients, reaffirming Medanta's unwavering commitment to accessible and quality healthcare. However, this journey of service does not end here.

Building on the success and impact of this initiative, Medanta Hospital is pleased to announce the next multi-specialist medical camp, scheduled for 10th and 11th June 2025. This upcoming camp will feature an expanded team of highly skilled specialty doctors from various disciplines, aiming to reach even more individuals in need and provide even more comprehensive medical support. With a focus on compassion, excellence, and outreach, Medanta continues to lead the way in community healthcare initiatives.
